

MPG Healthcare

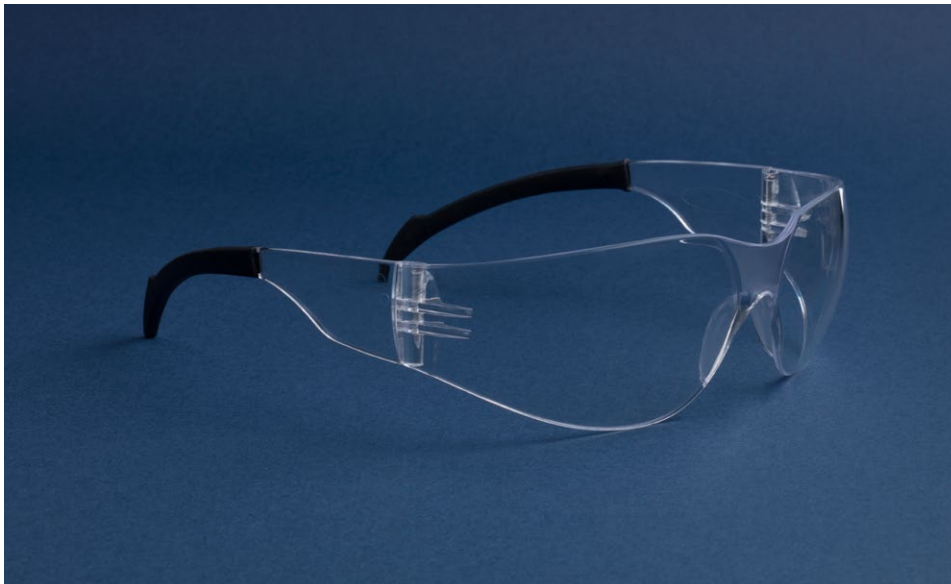

Protective goggles

MPG-HC-1

- Scratch-proof protective goggles made from polycarbonate with adjustable temples.
- Protection from UV-A and UV-B radiation.
- Lenses with blue light filter.
- Can be worn on top of most prescription glasses, protecting the lenses.
- Ventilation through virtually invisible vents integrated into the design.
- ANTI-FOG and ANTI-SCRATCH coatings on the lenses.
- Integrated nosepiece for secure and comfortable fit.

This product conforms with EU Standard EN166:2001 for personal eye protection.

MPG-HC-2

- Polycarbonate protective goggles.
- Protection from UV-A and UV-B radiation.
- Lenses with blue light filter.

This product conforms with EU Standard EN166:2001 for personal eye protection.

MPG-HC-3

- Scratch-proof protective goggles made from polycarbonate.
- Protection from UV-A and UV-B radiation.
- Lenses with blue light filter.
- Ideally for wearing on top of prescription glasses.
- Protection from splashes and – thanks to its breathable design – from fogging.
- ANTI-FOG and ANTI-SCRATCH coatings on the lenses.
- Integrated nosepiece for secure and comfortable fit.

This product conforms with EU Standard EN166:2001 for personal eye protection.

MPG-HC-4

- Protective goggles consisting of PVC frame suitable for medical applications and polycarbonate lenses.
- Protection from UV-A and UV-B radiation.
- Impact- and scratch-resistant surface, anti-fog coating on both sides.
- Effectively protects the eyes from dust, liquids and gases.
- Broad field of vision, no blind spots.
- Can be worn on top of prescription glasses.
- Particularly suited for use by medical specialists.

This product conforms with EU Standard EN166:2001 for personal eye protection. Category „B“ – impact with medium energy.
